Processing of this information means:

1. analysis of parish registers;
2. determination of all branches of the family you are interested in;
3. selection of documents, cataloguing, indexing, and processing of information, construction of a family tree/chart;
4. making screenshots linking on each member of family tree;
5. interpretation of parish registers and other documents containing genealogical information for those people, whose ancestors came from modern territory of Ukraine.

While working in this area, we have organized historical data, and, as a result, created a unique data base, which makes a significant contribution to efficiency our work.

## Regional Projects – Seeking Volunteers

### Mr. Marcel Glaskie, Ra'anana, Israel

Email: [marcelg@netvision.net.il](mailto:marcelg@netvision.net.il)

Mr. Glaskie specializes in Romania and has digitally photographed indexes and some civil records (birth, marriage & death) of Jewish residents in several Romanian towns: Bacau, Bucharest, Răducăneni (county of Iasi, Moldavia), Dranceni (Vaslui county), and he also has full access to Iasi (Jassy) & Husi. He is looking for volunteers to assist with indexing birth, marriage & death Records, mostly 1865 to 1915 (in Romanian). Contact him to inquire about obtaining copies of records.

As a point of information for members, he advises that when contacting state archives and any registry office in Europe, do NOT use the American term “Vital Records.” In Europe, the use of that term implies “Medical files.” Be careful to only use the term “Civil Records.”

### Mr. & Mrs. Ralph & Joanna Hollingshead

[link2ralph@icloud.com](mailto:link2ralph@icloud.com) and [note2joanna@gmail.com](mailto:note2joanna@gmail.com)

Who knows how many other cities and towns are waiting to be read? Help! We would like more volunteers to assist with our project.”
